1954 January 8	Arrived in Brazil
1987 November 24	Died, San Francisco, California

SCOPE AND CONTENT NOTE

NIKOLAI PETROVICH KALUGIN PAPERS

The bulk of this collection deals with Russians in Manchuria and particularly Harbin in the 1920s-1940s. N. P. Kalugin was an engineer, and his papers contain significant information on the Russko-kitaiskii politekhnicheskii institut, later the Harbin Polytechnic Institute (Kharbinskii politekhnicheskii institut), including a complete run of the periodical Politekhnik, issued by its alumni association in Australia, and collected after his death by Kalugin's son, Nikolai.

Detailed processing and preservation microfilming for these materials were made possible by a generous grant from the National Endowment for the Humanities and by matching funds from the Hoover Institution and Museum of Russian Culture. The grant also provides depositing a microfilm copy in the Hoover Institution Archives. The original materials and copyright to them (with some exceptions) are the property of the Museum of Russian Culture, San Francisco. A transfer table indicating corresponding box and reel numbers is appended to this register.

The Hoover Institution assumes all responsibility for notifying users that they must comply with the copyright law of the United States (Title 17 United States Code) and Hoover Rules for the Use and Reproduction of Archival Materials.
