SCOPE AND CONTENT NOTE

IURII PETROVICH MIROLIUBOV PAPERS

Iurii Miroljubov was a chemist, journalist, poet and writer with an interest in ancient Russian folklore. He is best known for his attempts to synthesize a new history of pre-historic Russia in a series of books and articles, many of which were based on the so-called "Vlesova kniga," dismissed by all competent historians, which he helped promulgate as editor of the journal Zhar-ptitsa. Materials relating to the "Vlesova kniga" can be found among his writings as well as in the subject file. Other materials of interest are his reminiscences of the Russian colony in Belgium during the German occupation (1939-1945), numerous newspaper columns, many of which deal with émigré political and social life in post-World War II Belgium, and short stories, some of which were compiled and published under the titles Babushkin sunduk and Prabkino uchenie.

Detailed processing and preservation microfilming for these materials were made possible by a generous grant from the National Endowment for the Humanities and by matching funds from the Hoover Institution and Museum of Russian Culture. The grant also provides depositing a microfilm copy in the Hoover Institution Archives. The original materials and copyright to them (with some exceptions) are the property of the Museum of Russian Culture, San Francisco. A transfer table indicating corresponding box and reel numbers is appended to this register.

The Hoover Institution assumes all responsibility for notifying users that they must comply with the copyright law of the United States (Title 17 United States Code) and Hoover Rules for the Use and Reproduction of Archival Materials.
